#### **CHG SERIES BREAKERS**

Gas-Fired breakers for small to medium sized carriers

#### **CHG Series Gas-Fired Breaker Specs**

Model	Ft. Lb. Class	Working Weight Lbs.	Carrier Weight Lbs.	Tool Diameter In.	Impact Rate BPM	Flow Range GPM
CHG2	250	326	2,200 - 6,600	1.56	700 - 1,500	4 - 9
CHG3	400	414	4,400 - 9,900	2.15	450 - 1,150	6.6 - 11.9
CHG6	500	656	6,000 - 10,000	2.63	632 - 1,500	10 - 22
CHG7	750	746	8,500 - 12,000	2.65	600 - 1,100	10 - 22
CHG9	1,000	960	10,000 - 18,000	2.93	450 - 750	10.6 - 21.1
CHG10	1,500	1,245	12,000 - 24,000	3.32	400 - 750	11.9 - 22.5
CHG15	2,500	2,156	30,000 - 40,000	3.90	400 - 750	21.1 - 29

## GET CONNECTED. STAY CONNECTED.

**CHG Series Highlights** 

1 Auto Shut Off (ASO)

Protects hammer from blank firing. Instantly stops the hammer operation when breaking through material. Activation of ASO can be easily adjusted to the working environment.

2 Rotatable / Slip-fit Tool Bushing
Field replaceable tool bushing provides
multiple wear surfaces reducing
replacement costs.

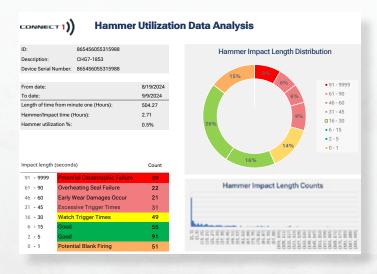

**3** Boxed Housing Design

CHG series breakers can come as a boxed style which protects the powercell by fully enclosing the breaker. It also helps reduce operational noise.

#### **MODERNIZE YOUR FLEET**

A revolutionary new wireless telematics device that delivers detailed diagnostic data on the attachment it's connected to.

#### **CONNECT 1 Features:**

- GPS Location, with bread crumb history
- Temperature detection
- · Burst data (trigger time)
- Utilization (daily, weekly, monthly)
- Device health alerts (low battery, signal strength, etc)
- Alarm detection (shock, motion, G force, etc)
- · Daylight/Dark detection
- · Event history
- · Geo-fencing

Track location, working time, and monitor the health status of your attachments!

#### **CH SERIES BREAKERS**

#### **CH Series Oil-Fired Breaker Specs**

Model	Ft. Lb. Class	Working Weight Lbs.	Carrier Weight Lbs.	Tool Diameter In.	Impact Rate BPM	Flow Range GPM
CH120	3,000	3,200	38,000 - 48,000	4.72		26 - 39
CH130	4,000	3,725	48,000 - 55,000	5.11	400 - 500	34 - 39
CH140	5,500	4,620	52,000 - 60,000	5.51		45 - 53
CH150	7,500	5,380	52,000 - 75,000	5.91	250 450	45 - 53
CH165	10,000	6,504	60,000 - 80,000	6.5	350 - 450	50 - 58
CH175	12,000	8,270	80,000 - 120,000	6.89		55 - 63
CH180	14,000	12,130	100,000 - 140,000	7.09	7.09 300 - 400	
CH205	16,000	16,530	120,000 +	8.07		79 - 106

## ATTACHMENTS YOU CAN DEPEND ON FROM PEOPLE YOU TRUST

#### **CH** Series Highlights

N2 Gas Charged Accumulator
Rechargeable N<sub>2</sub> gas accumulator
assists power stroke and reduces
the surge pressure and spikes
from the hydraulic circuit of the
excavator.

2 Lubrication Systems

All CH Series Breakers offer top down lubrication, breaker mounted.

3 Piston

Efficient Power Transfer. The oil flow allows for optimum transfer of blow energy into the material and reduces recoil.

CH Series has the most efficient piston design for maximum energy transfer and recoil reduction, with an ideal match of tool and piston diameters. It transfers the highest shock wave into the breaking objects.

4 Boxed Housing

Housing reduces decibel levels and provides maximum protection to the breaker. Replaceable wear plates protect the power cell and internal housing.

5 Top Buffer

The top buffer acts as a vibration absorber to prevent impulses between the carrier and the breaker.

**Oil Flow Control Valve** 

Control valve regulates the flow of hydraulic oil for maximum performance regardless of flow variations. (Large Series)

**Check Valve** 

Check valve prevents back oil flow and reduces unnecessary spikes from the hydraulic circuit. (Medium Series)

7 Built in Pressure Port

Allows quick access with included adapter to easily read the operating and back pressure of hammer without removal of hoses.

8 Compact Cylinder Design

Allows the breaker to have a narrow profile to improve operator visibility.

9 Wear Plates

Wear resistant plates between cylinder, front head, and housing increase overall product durability.

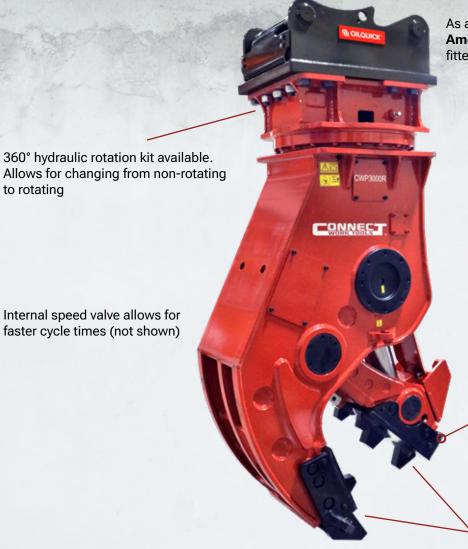

10 Field Replaceable Tool Bushings

The Power Cell does not need to be removed from the housing to replace the bushing. This allows for easy serviceability to keep the breaker bushing within spec and with minimal down time.

Anti-Blank Fire (ABF) System (not pictured)
ABF increases the lifespan of all components
subject to wear and fatigue and reduces stress
on the main carrier and breaker.
(Available on most Medium/Large Series Breakers)

#### **CWP SERIES PULVERIZERS**

As a manufacturing partner with **OilQuick Americas**<sup>®</sup>, all Connect attachments can be fitted with an automatic quick coupler

Cutter has 4 edges - rotate cutting edges for longer use

One-piece replaceable tooth plates
Teeth are made of Hardox Steel

#### **CWP Series Hydraulic Pulverizer Specs**

Model	Working Weight lbs.	Carrier Weight lbs.	Crushing Force lbs.	Jaw Width in.	Max Jaw Opening in.	Flow Rate GPM	Max Pressure PSI
CWP2000	4,200	50,000 - 70,000	040 500	0.4	27	66	4.600
CWP2000R	5,300	55,000 - 70,000	242,500	24	37		
CWP3000	6,150	60,000 - 90,000	250 700	0.7	41	70	4,600
CWP3000R	7,000	65,000 - 90,000	352,700	27	41	79	

### IT'S CRUNCH TIME

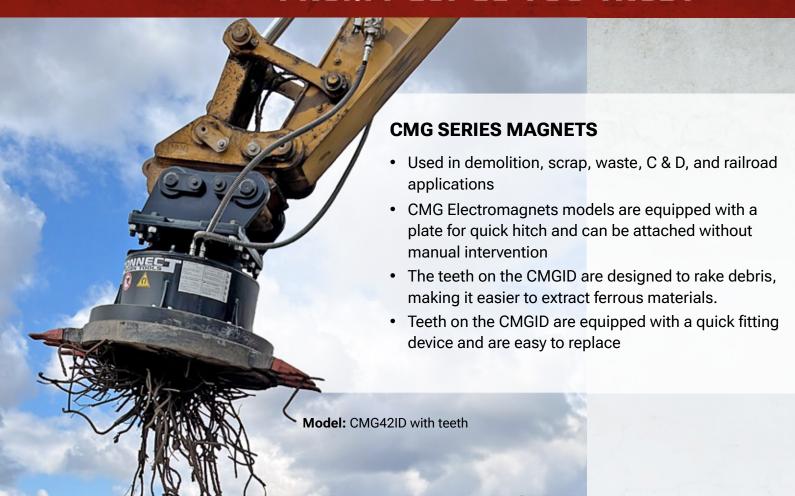

#### **CMG SERIES SELF CONTAINED HYDRAULIC MAGNETS**

#### **CMGID Series with Teeth**

Models	Carrier weight lbs.	Flow Rate GPM	Diameter in	Power kW	Weight lbs.	Voltage V
CMG38ID	28,000 - 34,000	10 - 40	38	4.5	2,646	220
CMG42ID	38,000 - 46,000	10.5 - 40	42	5.5	3,046	220
CMG50ID	52,000 - 64,000	12 - 40	50	7.0	4,189	220

## ATTACHMENTS YOU CAN DEPEND ON FROM PEOPLE YOU TRUST

#### **CMGIC Series with Chains**

Models	Carrier weight lbs.	Flow Rate GPM	H base in	Power kW	Weight lbs.	Voltage V
CMG42IC	38,000 - 46,000	10.5 - 40	42	5.5	2,315	220

#### **CG SERIES ROTATING GRAPPLES**

As a manufacturing partner with **OilQuick Americas**®, all Connect attachments can be fitted with an automatic quick coupler

#### **CG Series Rotating Grapple Specs**

Model	Working Weight Lbs.	Carrier Weight Lbs.	Capacity Ft <sup>3</sup>	Oil Flow GPM	Jaw Width Closed (A) In.	Max Jaw Opening (B) In.	Height Closed (C) In.	Height Opened (D) In.	Grapple Width (E) In.
CG10	1,080	10,000 - 18,000	7.1	16	38	63	40	35	18.8
CG15	2,340	18,000 - 38,000	14.2	21	42	65	50	44	33.5
CG22	3,420	38,000 - 60,000	24.7	26	48	78	55	49	41.3
CG30	4,800	60,000 - 85,000	35.3	40	58	80	58	65	43.9
CG40	5,200	85,000 - 100,000	40.1	55	62	84	66	58	52.1

## GET CONNECTED. STAY CONNECTED.

#### **CS SERIES SHEARS**

Connect Work Tools' CS Series Shears that are ideal for scrap processing, demolition work, road and bridge reconstruction, and jobs where torching is not practical or cost-effective.

#### The CS Difference

- Unique tip design covers the entire tip, reducing maintenance downtime
- Massive pivot group eliminates the need for an auto-guide system
- 360° continuous rotation on a turntable bearing
- · Maximized power to weight ratio
- Made with high-strength, abrasion-resistant steel for durability
- Taller blades resulting in a stronger jaw structure
- Increased operator visibility with an integrated end cap and nut
- Compact main solid main shaft design

#### **CS Series Shear Specs**

	Model	Min Excavator Stick Mount Lbs.	Min Skid Steer Loader Lbs.	Weight Lbs.	Jaw Opening In.	Jaw Depth In.
	CS7 with SSL Bracket	15,432	6,614	1,704	11.6	12.6
10 May 10	CS7 Flat Top	15,432	6,614	1,448	11.6	12.6
	CS15 with Bracket	26,455	-	3,860	16.1	16.1
No. of Parties	CS15 Flat Top	26,455	-	3,279	16.1	16.1

## ANY PROJECT BIG OR SMALL

#### **CC SERIES COMPACTORS**

CWT's CC Compactor Series has **integrated flow control valves**, and **self aligning bearings** with a **maintenance-free oil lubrication system**.

The CC series has compatible mounting brackets for the CH Breaker and CG Grapple Series.

#### **CC Series Compactor Specs**

Model	Approx. Attachment Weight lbs.	Jaw Opening in.	Jaw Depth in.	Reach	Minimum Excavator 2nd Member Mount lbs.	Minimum Excavator 3rd Member Mount lbs.
FC25	6,100	32	30	7′ 4″	30,000	45,000
FC35	8,700	42	38	9' 4"	40,000	66,000
FC45	10,200	53	44	10′ 4″	60,000	90,000
FC95	21,000	65	64	13' 7"	105,000	185,000

Rock & concrete excavation, crushing, and screening attachments that compliment Connect Work Tools

#### ROCKWHEEL

Rock & Concrete grinder attachments that offer precision cutting and grinding for many applications

**DEMOLITION** 

**TRENCHING** 

#### **ROCKCRUSHER**

#### **On-Site & Mobile Crushing Attachment**

With the Rockcrusher, material can be crushed directly on site. Disposal and transportation costs to stationary crushing plants are avoided. Operation cost is **less than \$1 per ton** of processed material (including fuel and maintenance costs).

#### **REBUILD SERVICE**

### Our breaker Service Center in Texas offers rebuild service on CWT breakers and most other top-tier equipment brands

Our commitment to transparent and open communication is at the core of our rebuilding service. We utilize a comprehensive diagnostic form and capture images of any damaged components, ensuring a highly visible, well-documented record stored in our customer database.

Before returning any repaired breakers to you, we subject them to rigorous testing and keep detailed records of their performance. Additionally, all our rebuild services come with a 90-day warranty for your peace of mind.

Complementing our rebuild facility is our investment in top-tier field service personnel. From on-site installation support to tailored training programs for dealers and end users, we provide a comprehensive suite of services that sets us apart.

#### **PARTS**

## We understand the need to keep your investment up and running.

Our Texas facility is fully stocked with replacement parts for Connect Work Tools and RockZone attachments.

We offer same day shipping on most parts.

In addition to standard parts, we offer customization kits for special applications:

- Combo brackets
- Solida® tool bits for most major brands
- Specialty tools
- Plating kits
- · Rebuild kits
